thePoint is the one-stop source for the Wolters Kluwer content and tools students need to study more effectively, score higher on exams, and prepare for the working world after graduation.

To utilize the full feature set of this platform and digital products, you must have access to the Internet, an up-to-date browser, and a minimum of 4Gb of RAM. The versions of browsers and operating systems listed below represent the minimum system requirements to support all products accessed on thePoint, as of the revision date indicated above.

**Lippincott Clinical Experiences**
The simulations used in Lippincott Clinical Experiences are based on the Unity 3D engine, which will run in Chrome, Edge, and Safari browsers in Windows, and Chrome and Safari in MacOS. LCE will not work on smart phones, iPads, Android tablets, or other mobile devices.

**Adobe Flash for Australia/New Zealand vSim Products**
One component of the Australia/New Zealand vSim for Nursing products, the interactive vSim scenario, requires the latest version of Adobe Flash Player.
