Logarithm of odds having persistent pain at one year

Pain day after cesarean delivery VAS 0-10 cm

\[ y = -1.98 + 0.08x \]

R² Linear = 0.507
Logarithm of odds having persistent pain at one year

Pain day after vaginal delivery VAS 0-10 cm

Cases weighted by number of parturients

$y = -3.08 + 0.07 \cdot x$

$R^2$ Linear = 0.177
