

Supplemental Digital Content 2. Airway Pressure, Esophageal Pressure, and Transpulmonary Pressure in HFOV Group

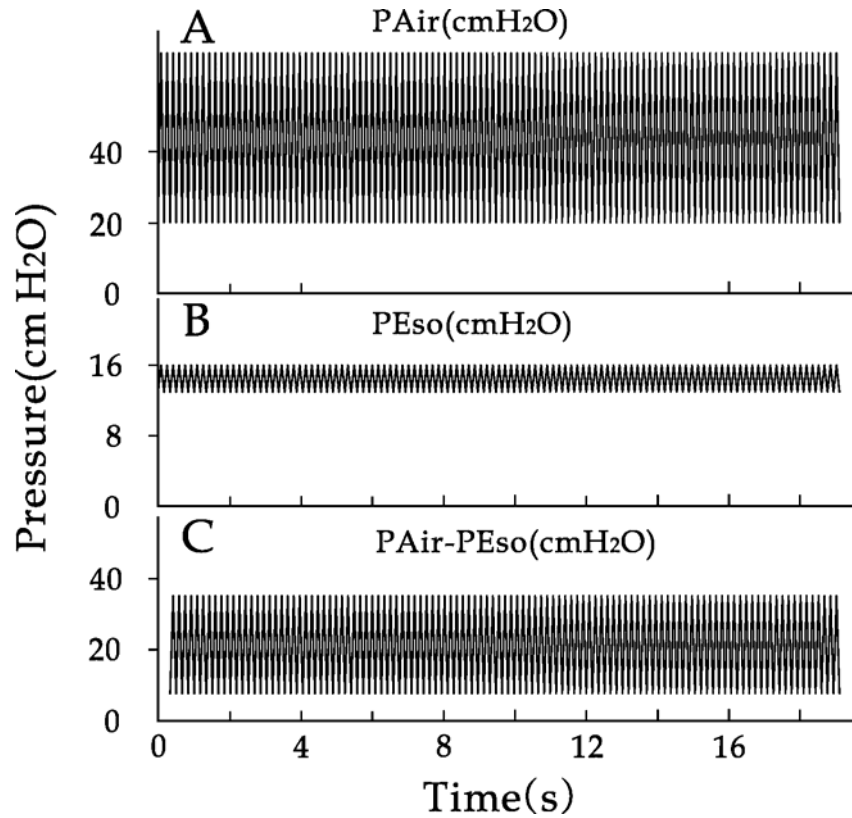

Fig. 1. Airway pressure (A), esophageal pressure (B) and transpulmonary pressure (C) in HFOV group were monitored by VENTRAK™ Model 1550 respiratory mechanics monitoring system (Novamatrix Medical Systems Inc., Wallingford, CT).

HFOV = high-frequency oscillatory ventilation; PAir = airway pressure; PEso = esophageal pressure; S = second.
