Figure s1. Daily means of PM_{2.5} at HCOE for the period July–December 2016 and monthly means at JGTV for the period January 2014–December 2016.

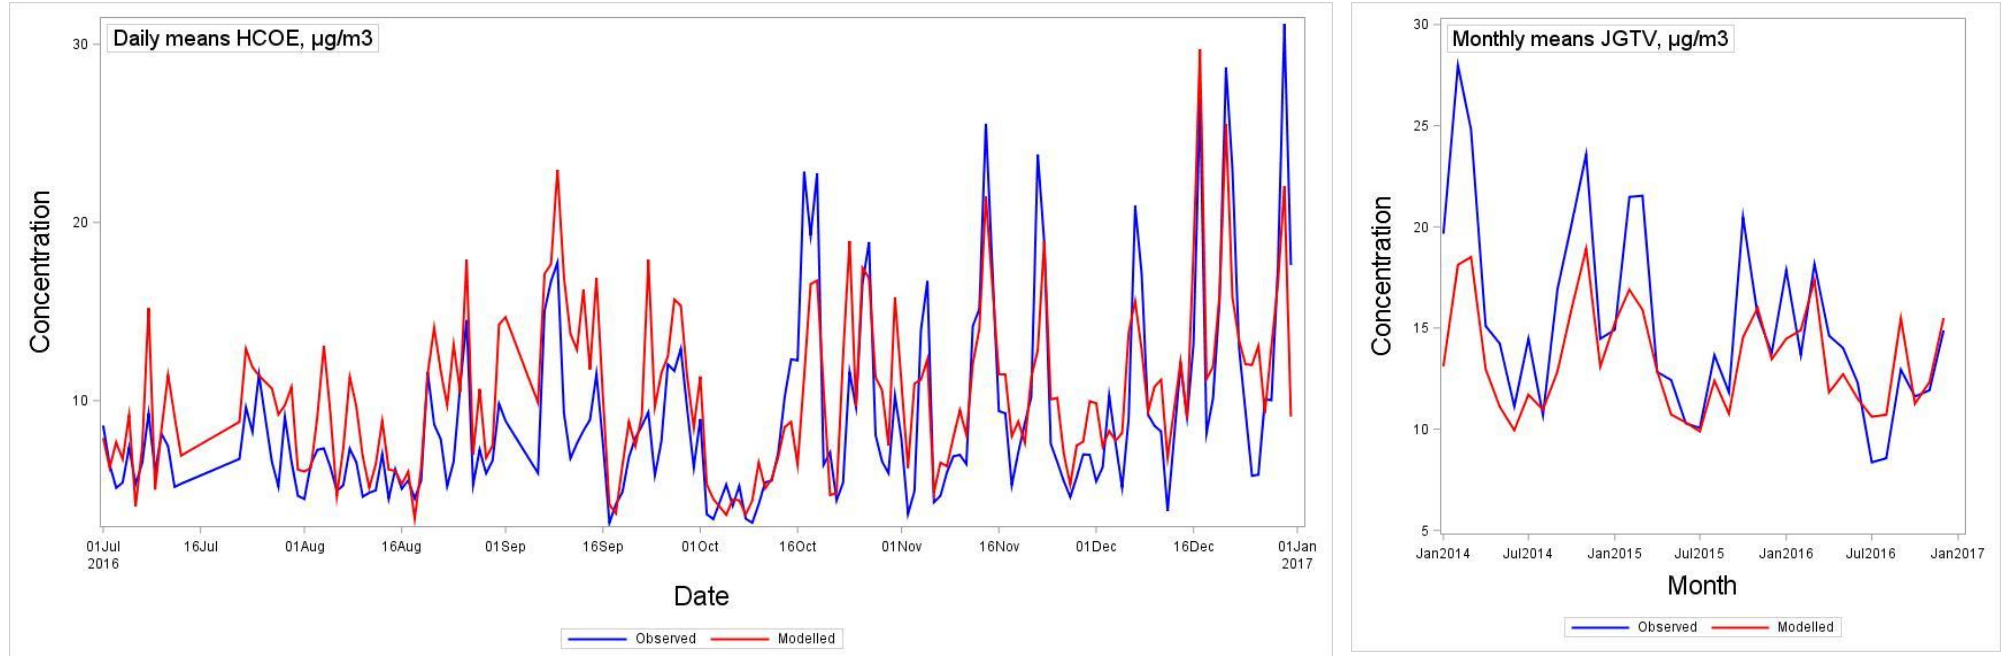

Figure s2. Daily means of measured and modelled PM₁₀ at HCOE and JGTV.

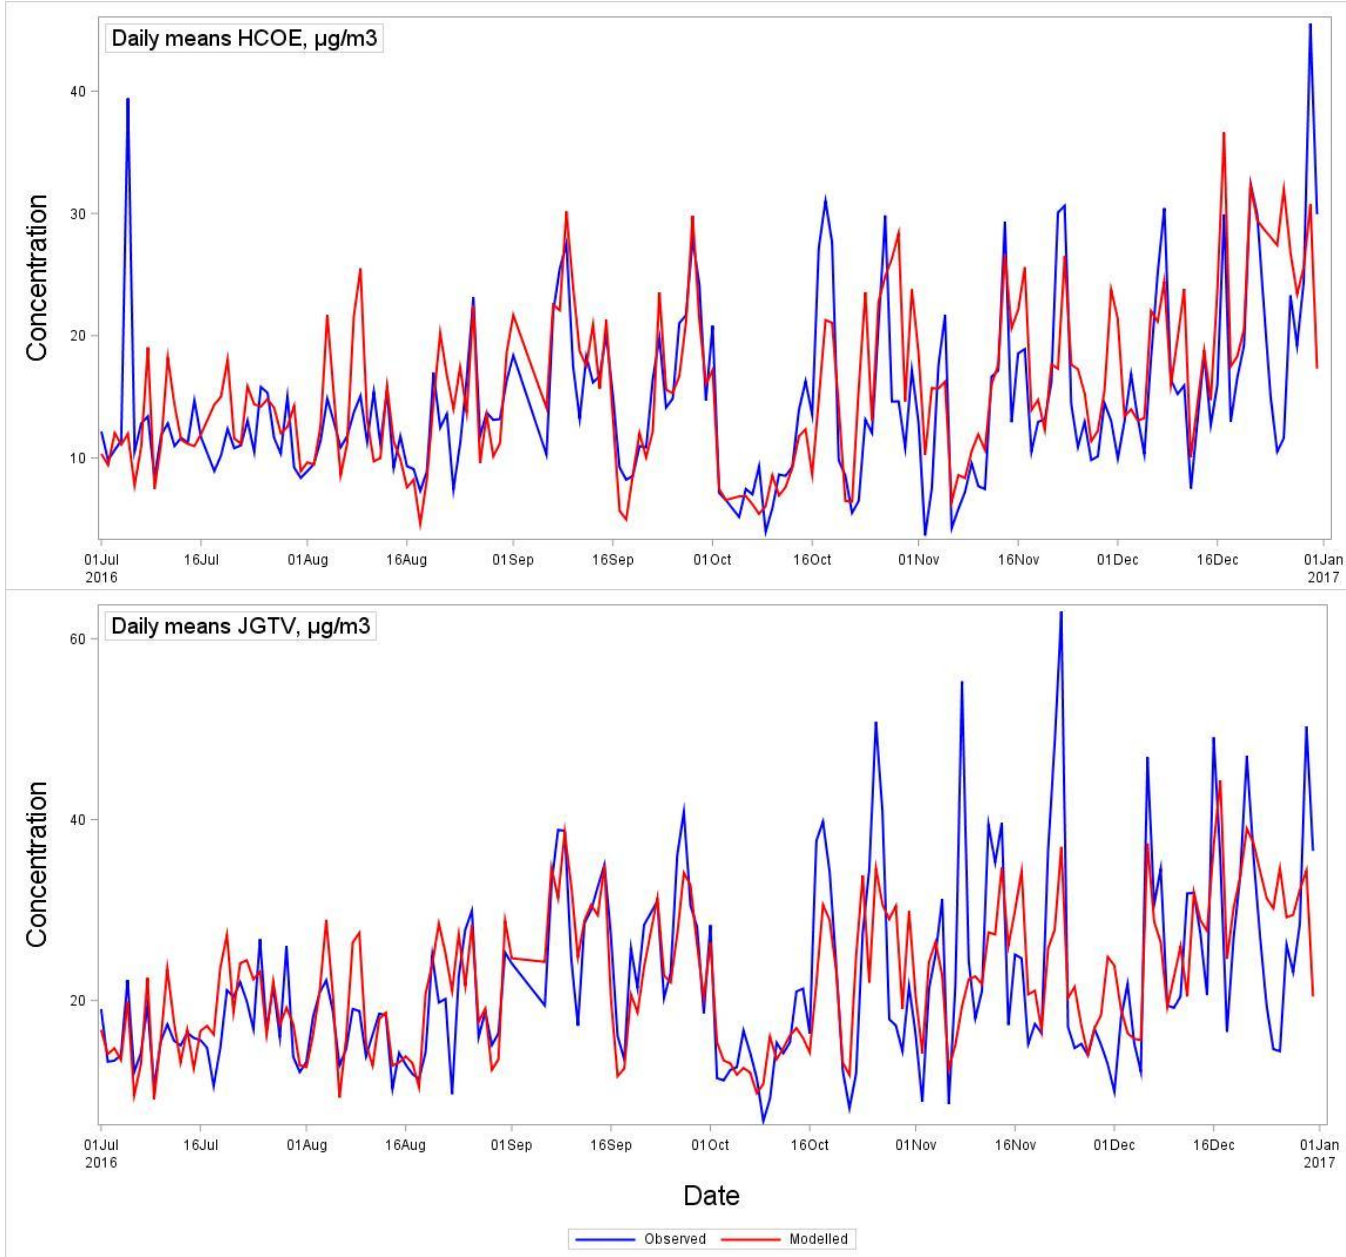

Figure s3. Monthly means of measured and modelled PM₁₀ at HCOE (June 2013–December 2016) and JGTV (January 2014–December 2016).

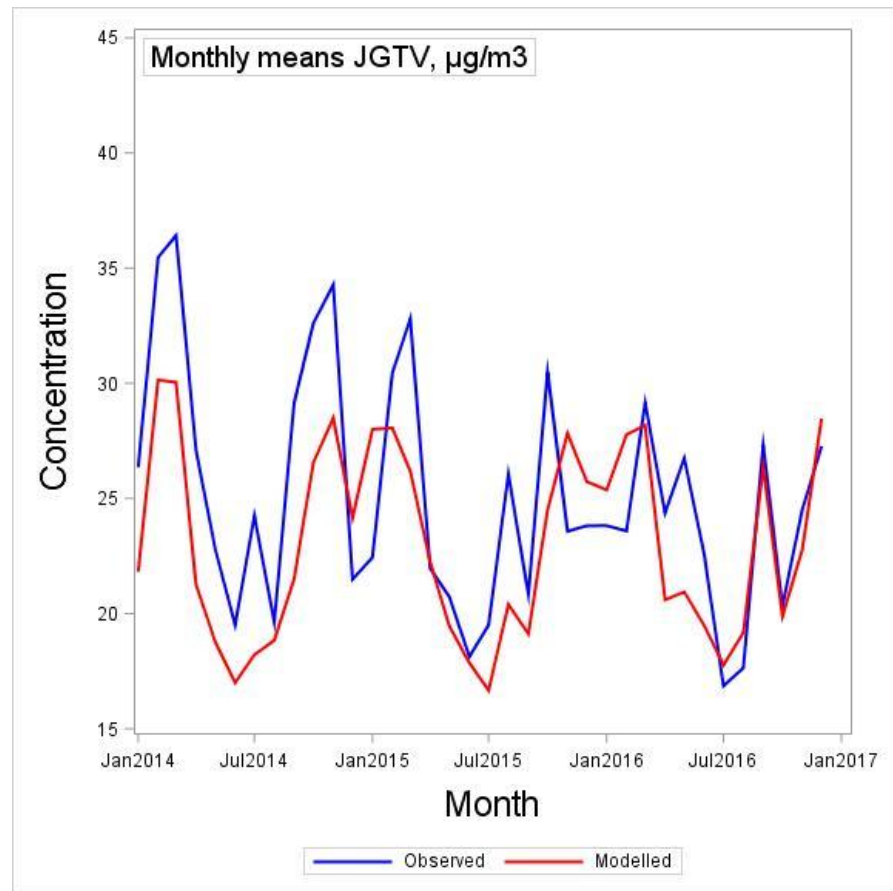

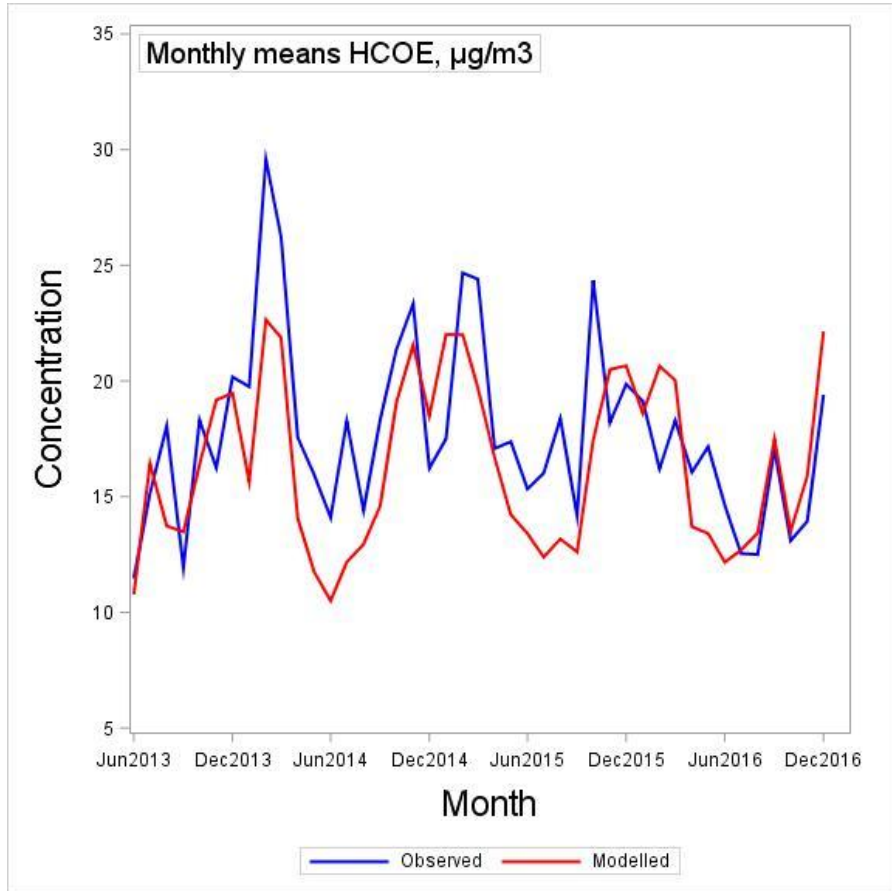

Figure s4. Predicted mean concentrations of PM_{2.5} plotted against front door measured concentrations from Measurement campaign 1 according to season.

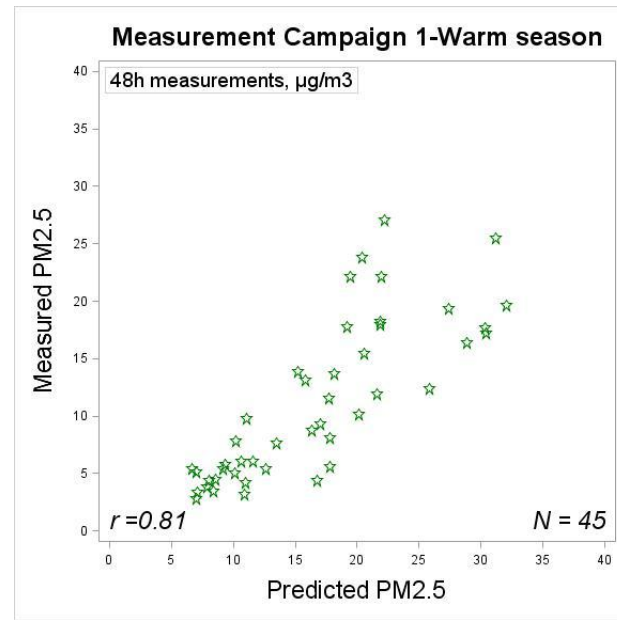

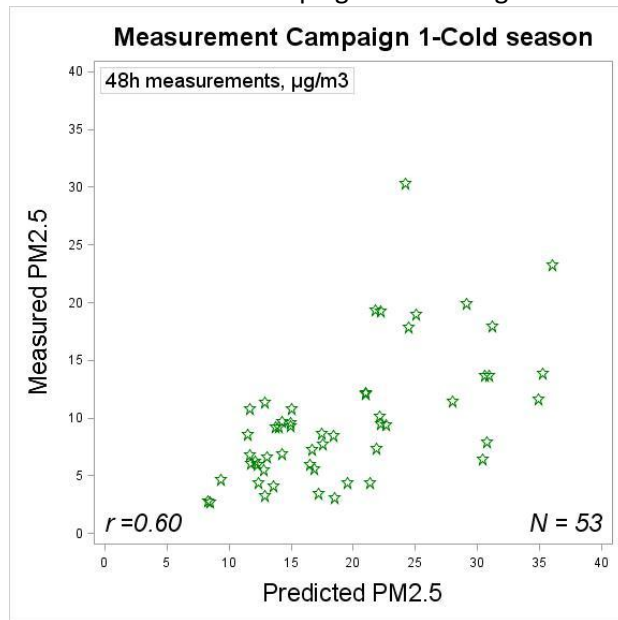

Figure s5. Mean concentrations of PM_{2.5} and PM₁₀ measured by SM200 at the fixed monitoring site HCOE plotted against concentrations from Measurement campaign 2 measured by Harvard Impactors (HI).
