

Questionnaire: Radiograph Set—Fracture of the Distal Radius

Instructions: For each multiple-choice question, please indicate your answer.

Fracture Description

- 1) **intra-articular** **extra-articular** **unsure**
- 2) Number of fragments? **1** **2** **>2**
- 3) Anterior comminution? **yes** **no** **unsure**
- 4) Dorsal comminution? **yes** **no** **unsure**
- 5) Intra-articular displacement requiring reduction? **yes** **no** **unsure**
- 6) Radiocarpal dorsal fracture-dislocation? **yes** **no** **unsure**

Computed Tomography

- 7) Based on the images, would you order computed tomography to finalize your treatment plan? **yes** **no**

Treatment

- 8) **operative** **nonoperative**
- 9) **closed reduction with percutaneous pinning with or without external fixation**
or **open reduction**
- 10) Surgical approach: **palmar** **dorsal** **combined**

Fig. E-1

Seven surgeons answered ten questions for each of 100 sets of radiographs.
