Syrian refugee patient's survey

This survey will help shed light on the effects of Syrian refugees on the Canadian health sector.

Thank you for your participation!

What is the name of your institution?
__________________________________

Do you treat any Syrian refugees at your institution?
○ Yes
○ No

How many Syrian refugee patients do you treat?
__________________________________

Are any of your Syrian refugee patients being treated for any malignancies?
○ Yes
○ No

Please specify the malignant disorder(s).
__________________________________

Do any of the Syrian refugee patients have a hemoglobinopathy?
○ Yes
○ No

Please specify which hemoglobinopathy. (multiple answers are allowed)

- 1. Sickle cell disease
- 2. Beta-thalassemia syndrome
- 3. Other beta-chain hemoglobinopathies

Specify the sickle cell diagnosis that your Syrian refugee patients are being treated for. (multiple answers are allowed)

- 1. HbSS
- 2. HbS/beta0 thalassemia
- 3. HbS/beta+ thalassemia
- 4. HbSC
- 5. HbSE
- 6. HbSD
- 7. HbS/HPFH
- 8. Other

Specify other sickle cell disease.
__________________________________

Specify the beta-thalassemia syndrome that your Syrian refugee patients are being treated for. (multiple answers are allowed)

- 1. Hb beta+/beta+ thalassemia
- 2. Hb beta+/beta0 thalassemia
- 3. Hb beta0/beta0 thalassemia
- 4. HbC/beta+ thalassemia
- 5. HbE/beta+ thalassemia
- 6. HbC/beta0 thalassemia
- 7. HbD/beta0 thalassemia
- 8. HbE/beta0 thalassemia
- 9. Other

Specify other beta-thalassemia syndrome.
__________________________________

Specify the other beta-chain hemoglobinopathies that your Syrian refugee patients are being treated for. (multiple answers are allowed)

- 1. HbCC
- 2. HbD/beta+ thalassemia
- 3. HbE/delta-beta thalassemia
- 4. HbEE
- 5. Other

Specify other beta-chain hemoglobinopathies.
__________________________________

Do any of your Syrian refugee patients have a bleeding disorder?
○ Yes
○ No

What (which) type(s) of bleeding disorder(s)?
__________________________________
Do any of your Syrian refugee patients have a thrombotic disorder?  

- Yes  
- No

What (which) type(s) of thrombotic disorder(s)?

Are any of your Syrian refugee patients being treated for another disorder?  

- Yes  
- No

Please specify the other disorder(s).

How has work load changed at your institution given the influx of Syrian refugee patients?  

- 1. No change (same workload)
- 2. Slightly increased
- 3. Significantly increased
