### Standard Protocol (ACLS 2010 protocol)

**2010**

#### General
- Antiseptic wipes (6)
- Adhesive tape (assorted sizes)
- Glucometer
- BP cuffs (adult size)
- Cold packs (3)
- Conforming Bandages (“Kling” 6x3)
- MAST trousers (adult)
- Obstetrics Kit
- Rectal thermometer
- Splints (assorted sizes, >2)
- Sterile burn sheets (>2)
- Sterile gauze (assorted sizes)
- Stethoscope (adult)
- Device to secure the ET tube in place
- ETI placement verification device (end-tidal CO2 capability)

#### Extrication / Transport
- Cervical collars (adult)
- Cervical immobilization device
- Long spine board (adult)
- Short extrication board
- Straps for boards (4)
- Stretcher / Straps (2+3) / Mattress

#### Triage / Tracking tags

#### Airway / Ventilation
- Bag-valve-masks (adult)
- Bite stick (taped tongue-blades)
- Cricothyrotomy kit (P)
- Endotracheal intubation kit (P)
- EOA tube w/ mask
- Main oxygen supply
- Nasogastric tubes (P)
- Nasopharyngeal airways (4 sizes)
- On-board suction
- Oxygen cannulas
- Oropharyngeal airways (3 sizes)
- Oxygen masks (2 adult)
- Oxygen nebulizer (2 nebs)
- Portable oxygen cylinder (P)
- Portable oxygen cylinder (D+)
- Portable suction unit
- Pulse-oximeter
- Suction catheters w/ tubing (rigid + flexible)
- Water soluble lubricant

#### Infection Control
- Biohazard / Refuse container (1)
- Latex-free gloves
- N95 masks (5)
- Sharps receptacle (1)

#### IV Supplies / Equipment
- Central line kit (P)
- Constricting bands (2)
- Drip sets (10-15 gtts; 2)
- Drip sets (60 gtts; 2)
- Intravenous infusion device (manual: P)
- IV catheters (14#, 16#, 18#, 20#, 22#, 24#; 2)
- IV D5W (250cc x 1) / Lact.Ringer’s (1000cc x 2) / NS (1000cc x 2)
- Padded arm boards (adult)
- Stopcock (3- or 4-way)
- Syringes / needles (assorted sizes)
- Volumetric burette (100mL)

#### Medications (only non-enteric listed)
- adenosine (9mg vial x 3)
- albuterol 0.083% (2.5mg unit dose)
- amiodarone (150mg vial x 2)
- atropine (1mg pre-filled x 3)
- calcium chloride (1g pre-filled x 2)
- dextrose 50% (pre-filled)
- diazepam (10mg vial)
- diltiazem (25mg vial x 2)
- diphenhydramine (50mg vial)
- dopamine (400mg premixed bag)
- epinephrine 1:1,000 (1mg pre-filled x 3)
- epinephrine 1:10,000 (1mg pre-filled x 3)
- furosemide (60mg vial)
- glucagon (10mg vial)
- hydrocortisone (100mg dose x 1)
- lidocaine 2% (2.5mg unit dose)
- lorazepam (10mg vial)
- magnesium sulfate (P: 1g vial x 1)
- midazolam (20mg vial)
- morphine (12mg vial)
- naloxone (0.4mg vial x 2)
- nitroglycerin (0.4mg tablet; vial)
- sodium bicarbonate 8.4% (pre-filled)
- thiamine (100mg vial)
- verapamil (P: 15mg vial)
